Independent Auditor's Report

To the Board of Directors
Municipal Authority of the Borough of Greenville
Greenville, Pennsylvania

We have audited the accompanying financial statements of the Municipal Authority of the Borough of Greenville as of and for the years ended December 31, 2010 and 2009 as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based upon our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Municipal Authority of the Borough of Greenville as of December 31, 2010 and 2009, and the changes in its financial position and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The Municipal Authority of the Borough of Greenville has not presented the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Municipal Authority of the Borough of Greenville
Notes to the Financial Statements
December 31, 2010 and 2009

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Municipal Authority of the Borough of Greenville was created under the laws of the Commonwealth of Pennsylvania to operate a water system to service individuals and organizations in the Greenville area. The Authority operates under a five person Board of Directors.

Basis of Presentation and Accounting

The Authority's basic financial statements are presented on the full accrual basis of accounting and conform to accounting principles generally accepted in the United States of America. The Authority has elected under GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Activities That Use Proprietary Fund Accounting*, to apply all applicable GASB pronouncements as well as any applicable pronouncements of the Financial Accounting Standards Board, the Accounting Principles Board, or any Accounting Research Bulletins issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements.

The accounts of the Authority are organized on the basis of a proprietary fund type, specifically, an enterprise fund. The activities of this fund are accounted for with a separate set of self-balancing accounts that comprise the Authority's assets, liabilities, net assets, revenues and expenses. Enterprise funds account for activities (i) that are financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity; (ii) that are required by laws or regulations that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues; or (iii) that the pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

The accounting and financial reporting treatment applied to the Authority is determined by its measurement focus. The transactions of the Authority are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations are included on the statement of net assets.

Revenues and Expenses

The Authority distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the Authority's ongoing operations. The principal operating revenues of the Authority are charges to customers for sales and services. Operating expenses include cost of sales and services, administrative expenses and depreciation on capital assets.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Unbilled revenue of the Authority represents estimated amounts due for services provided during 2010 and 2009, but not billed until after December 31, 2010 and 2009, respectively.

Inventory

Inventory consists of supplies held for repairs and maintenance on the water system. Inventory is valued at cost, using the first-in, first-out method.

Property, Plant and Equipment

Property, plant and equipment are stated at cost.

Repairs and maintenance costs are charged against earnings while renewals and betterments are capitalized by additions to the related asset accounts.

Depreciation is computed utilizing the straight-line method over the estimated useful lives of the related assets. The estimated useful lives range from 4 to 70 years, depending on the type of asset.

Bond Issue Costs

Bond issue costs represent costs associated with the issuance of the 2003 bonds and are being amortized using the straight-line method over the life of the bonds, 21 years.

NOTE B - CASH AND CASH EQUIVALENTS

Cash and cash equivalents consists of demand deposits at various financial institutions and cash on hand of \$300.

NOTE B - CASH AND CASH EQUIVALENTS (CONTINUED)

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure the government's deposits may not be returned. The Authority does not have a policy for custodial credit risk on deposits. At December 31, 2010 and 2009, the carrying amounts of the Authority's deposits were \$831,739 and \$795,743, respectively, with corresponding bank balances of \$984,065 and \$888,417. Of the bank balances at December 31, 2010 and 2009, \$510,257 and \$510,633, respectively were covered by federal depository insurance and \$473,808 and \$377,784, respectively, were exposed to custodial credit risk because they were uninsured and the collateral held by the depository's agent was not in the Authority's name.

NOTE C – DEMAND LOAN

The Authority entered into a demand loan with Pennvest which allows the Authority to borrow up to \$744,162 for capital improvements to the existing water system. The Authority does not anticipate borrowing this entire amount. The final amount borrowed will be paid at a rate of principal plus interest of 1.243% for the first five years of the loan and principal plus interest of 2.381% for the remaining fifteen years of the loan. The loan is secured by a lien on the Authority's water revenues. As of December 31, 2010, the balance outstanding is \$577,624.

NOTE D - LONG-TERM DEBT

During 2003, the Authority approved refinancing the Series of 1994 Water Revenue Bonds and entered into an agreement for the sale of the \$3,215,000 of Water Revenue Bonds, Refunding Series of 2003, at 1.4% to 4.5% due 2004 to 2024. The proceeds were used to refund the 1994 Water Revenue Bonds. During 2003, the 1994 Bonds were paid in full.

In conjunction with this refunding, the Authority has recognized a deferred amount on refunding in the financial statements, as a deduction from the outstanding bonds payable. This amount represents the difference between the reacquisition price and the net carrying amount of the 1994 Bonds and will be amortized over the remaining life of the old bonds. Amortization of the deferred amount on refunding amounted to \$23,610 for 2010 and 2009. This amount has been charged to amortization expense in the financial statements.

NOTE D - LONG-TERM DEBT (CONTINUED)

Long-term debt as of December 31, 2010 and 2009 consists of the following obligations:

	<u>2010</u>	<u>2009</u>
Water Revenue Bonds, Refunding Series of 2003, at 1.4 - 4.5%, due annually September 1, 2004 to September 1, 2024, interest paid semiannually, for refunding of the 1994 Water Revenue Bonds, secured by revenue of the Authority.	\$ 2,930,000	\$ 3,090,000
Note payable to UPMC Horizon, due in monthly installments of \$1,875, including interest at 5.67%, maturing January 2012. This note is unsecured.	<u>21,825</u>	<u>42,450</u>
Total long-term debt	2,951,825	3,132,450
Revenue Bond unamortized bond discount	(12,758)	(13,838)
Revenue Bond unamortized deferred amount on refunding	<u>(89,796)</u>	<u>(113,406)</u>
Total long-term debt, net	2,849,271	3,005,206
Less: Current portion (net of current amortization of bond discount and deferred amount on refunding of \$24,867)	<u>(166,958)</u>	<u>(155,758)</u>
	<u>\$ 2,682,313</u>	<u>\$ 2,849,448</u>

The reconciliation of the gross current-portion of long-term debt to the net amount as of December 31, 2010 and 2009 is as follows:

	<u>2010</u>	<u>2009</u>
Gross current portion of long-term debt	\$ 191,825	\$ 180,625
Amortization of bond discount	(1,257)	(1,257)
Amortization of deferred amount on bond refunding	<u>(23,610)</u>	<u>(23,610)</u>
Net current portion of long-term debt	<u>\$ 166,958</u>	<u>\$ 155,758</u>

NOTE D - LONG-TERM DEBT (CONTINUED)

The annual requirements to retire long-term debt outstanding as of December 31, 2010 are as follows:

<u>Year ending December 31,</u>	<u>2003 Bonds</u>	<u>UPMC Horizon</u>	<u>Total</u>
2011	\$ 170,000	\$ 21,825	\$ 191,825
2012	175,000		175,000
2013	180,000		180,000
2014	185,000		185,000
2015	195,000		195,000
Thereafter	<u>2,025,000</u>		<u>2,025,000</u>
	<u>\$ 2,930,000</u>	<u>\$ 21,825</u>	<u>\$ 2,951,825</u>

NOTE E - PENSION PLAN

Plan Description

The Authority participates in the Pennsylvania Municipal Retirement System (PMRS), an agent multiple-employer defined benefit pension that covers all permanent full-time employees of the Authority. Under this system, PMRS acts as a common investment and administrative agent for participating municipal pension plans. PMRS issues a publicly available financial report that includes financial statements and required supplementary information which may be obtained by writing to Pennsylvania Municipal Retirement System, P.O. Box 1165, Harrisburg, PA 17108-1165 or by calling 1-800-622-7968.

The system provides retirement, disability and death benefits to plan members and their beneficiaries. As a participant in PMRS, the Authority receives a separate actuarial valuation to determine its periodic contribution rate.

Funding Policy

Act 205 requires that the annual contributions be based upon the plan's Minimum Municipal Obligation (MMO). The MMO is based upon the plan's biennial actuarial valuation. Active members are required to contribute 3.5% of their total compensation to the plan. Any funding requirements established by the MMO must be paid by the Authority in accordance with Act 205.

Administrative costs, including the investment manager, custodial trustee and actuarial services are charged to the plan and funded through investment earnings.

NOTE E – PENSION PLAN (CONTINUED)

Annual Pension Costs

For the years ended December 31, 2010 and 2009, the Authority's annual pension costs were \$17,570 and \$17,359, respectively. The required contribution was determined as part of the January 1, 2009 actuarial evaluation using the entry age normal actuarial cost method. The actuarial assumptions included (a) investment rate of return of 6.0% and (b) projected salary increases of 4.5%, including an inflationary component of 3.0%.

The actuarial value of the assets was based on market value. The plan was fully funded at December 31, 2010 and 2009.

Trend information for the pension plan is as follows:

<i>Year Ending</i>	<i>Annual Pension Cost (APC)</i>	<i>Percentage of APC Contributed</i>	<i>Net Pension Asset</i>
2002	\$ 11,329	100%	\$ -
2003	26,814	100%	-
